

Club Development League – Covid Guidelines - Fall Season 2021

FULLY VACCINATED INDIVIDUALS

Coaches, players, referees, and spectators are no longer required to wear a mask if fully vaccinated

IF NOT FULLY VACCINATED

If unable to maintain 6 feet of physical distance from others, it is highly recommended that coaches and spectators continue to wear a mask in those circumstances:

Examples:

- On a crowded sideline during a game
- At the concession stand or in the restroom

LOCAL FACILITY or COMMUNITY RULES TAKE PRECEDANCE

Local facility/field rules regarding more strict mask requirements take precedence over the CDL's guidelines.

POSITIVE COVID TEST BY A PLAYER OR COACH

- If a team was exposed to this person (e.g., outdoors), the team no longer is required to suspend activity or quarantine per CDL policy, and the positive test is not required to be reported to the CDL.
- If the exposure was in more close quarters (indoor activity), the team may need to quarantine. Check with local health officials to determine if quarantine is necessary. In addition, local guidelines regarding quarantine situations take precedence over CDL Policy.
- Players or coaches who test positive must have been symptom-free for a minimum of 72 hours AND have been at least 10 days beyond the date the test was taken, or the date symptoms appeared.

CDL Recommendations

Players, coaches, and spectators should sit on the same side of field as their team, located on the opposite side of the field to the opposition.
